## **1 PURPOSE AND EFFECT OF THE OFFER**

### **1.1 Purpose of the Offer**

On 25 June 2013 the Company announced the issue of 22.1 million Shares (**Placement Shares**) at an issue price of \$0.02 to raise \$442,500 through a share placement (**Placement**) to certain professional and sophisticated investors. The issue was subject to Shareholder approval which was received on 7 June 2013. The Shares were issued without disclosure under Chapter 6D of the Corporations Act.

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to offer those securities for sale within 12 months of their issue.

Section 708A(11) of the Corporations Act provides an exemption from this general requirement where:

- (a) the relevant securities are in a class of securities of the company that are quoted securities of the body; and
- (b) a prospectus is lodged with ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made.

The purpose of this Prospectus and Offer is to comply with section 708(11) of the Corporations Act so that the Placement Shares are able to be offered for sale within 12 months of their issue.

The Placement Shares are not being offered by the Company with the purpose of the investors selling or transferring the Placement Shares. However, the Directors consider that the investors should be able to sell the Placement Shares should they wish to do so, without being required to issue a prospectus.

### **1.2 Effect of the Offer**

The effect of the issue of securities offered under this Prospectus will be that:

- (a) cash reserves will increase by a nominal amount (before costs); and
- (b) the number of Shares on issue will increase from 112,979,232 to **112,980,232**.

### **1.3 Use of funds raised under the Offer**

The Company intends to use funds raised under the Offer for working capital.

#### 1.4 Capital structure

At the close of the Offer, the capital structure of the Company will be:

<b>Shares</b>	
Shares currently on issue	112,979,232
New Shares offered under this Prospectus	1,000
<b>Total Shares on issue following the Offer</b>	<b>112,980,232</b>

  

<b>Options</b>	
Unquoted Options currently on issue	30,625,000
Quoted Options currently on issue	5,625,000
<b>Total Options on issue following the Offer</b>	<b>36,250,000</b>

#### 1.5 Effect on control

There will be no effect on control as a result of the Offer.

#### 1.6 Statement of audited financial position

Set out below is the Condensed Consolidated Statement of Financial Position of the Company (reviewed), as at 31 December 2012 and on the basis of the following assumptions:

- (a) the placement announced to ASX on 2 February 2013 (and approved and ratified by shareholders on 7 June 2013) (net a placement fee of 6%) and Offer were effective on 31 December 2012; and
- (b) no further Shares or Options are issued other than the Shares offered under this Prospectus.

The significant accounting policies upon which the statement of financial position and the pro-forma statement of financial position are based are contained in the audited financial report for year ended 31 December 2012.

## **2 DETAILS OF THE OFFER**

### **2.1 New Shares offered for subscription**

By this Prospectus the Company offers for subscription up to 1,000 New Shares at an issue price of \$0.02 per New Share to raise \$20.

The rights and liabilities of the New Shares offered under this Prospectus are summarised at section 3.

### **2.2 Minimum subscription**

There is no minimum subscription.

### **2.3 Opening and Closing Dates**

The Opening Date of the Offer will be 26 June 2013 and the Closing Date will be 31 July 2013. The Directors reserve the right to close the Offer early or to extend the Closing Date (as the case may be), should it be considered by them necessary to do so.

### **2.4 Application for New Shares**

This Offer is being extended to unrelated persons who are invited by the Company to subscribe for New Shares and is not open to the general public.

Applications for New Shares must be made using the Application Form attached to this Prospectus. To the maximum extent permitted by law, the Directors will have discretion over which Applications to accept.

Applicants will need to follow the procedures advised to them by the Company for Applications under this Offer.

### **2.5 Applicants outside Australia**

The distribution of the Prospectus in jurisdictions outside Australia may be restricted by law and therefore persons who come into possession of the Prospectus should seek advice on and observe any of these restrictions. Failure to comply with these restrictions may violate securities law. Applicants who are resident in countries other than Australia should consult their professional advisers as to whether any governmental or other consents are required or whether any other formalities need to be considered and followed to enable them to acquire New Shares.

The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all necessary approvals and consents have been obtained.

## **2.6 Application money held in trust**

All Application Moneys will be deposited into a separate bank account of the Company and held in trust for Applicants until the New Shares are issued or Application Moneys returned. Any interest that accrues will be retained by the Company and will not be paid to Applicants.

## **2.7 Allocation and allotment of New Shares**

The Company reserves the right to reject any Application or to allocate to any Applicant fewer New Shares than the number applied for. The Company also reserves the right to reject or aggregate multiple applications in determining final allocations.

In the event an Application is not accepted or accepted in part only, the relevant portion of the Application Moneys will be returned to Applicants, without interest.

The Company reserves the right not to proceed with the Offer or any part of it at any time before the allocation of the New Shares to Applicants. If the Offer or any part of it is cancelled, all Application Moneys, or the relevant Application Moneys will be refunded.

The Company also reserves the right to close the Offer or any part of it early, or extend the Offer or any part of it, or accept late Applications Forms either generally or in particular cases.

The allotment of New Shares to Applicants will occur as soon as practicable after Application Forms and Application Moneys have been received for the minimum subscription of New Shares being offered, following which statements of Shareholding will be dispatched. It is the responsibility of Applicants to determine their allocation prior to trading in the New Shares. Applicants who sell New Shares before they receive their statement of shareholding will do so at their own risk.

## **2.8 Quotation**

The Company will, in the event the Offer remains open for acceptances for more than 5 days after the date of this Prospectus, apply to ASX within 7 days after the date of this Prospectus for quotation of the New Shares offered by this Prospectus on ASX. If ASX does not grant permission for the quotation of the New Shares offered under this Prospectus within 3 months after the date of this Prospectus, or such longer period as modified by ASIC, none of the New Shares offered by this Prospectus will be allotted or issued. In these circumstances, all Applications will be dealt with in accordance with the Corporations Act including the return of all Application Moneys without interest.

A decision by ASX to grant official quotation of the New Shares is not to be taken in any way as an indication of ASX's view as to the merits of the Company or of the New Shares.

Quotation, if granted, of the New Shares offered by this Prospectus will commence as soon as practicable after statements of holdings of the New Shares are dispatched.

## 2.9 Market prices of existing shares on ASX

The highest and lowest market sale price of the Shares, which are on the same terms and conditions as the New Shares on offer under this Prospectus, during the 3 months immediately preceding the lodgment of this Prospectus with the ASIC, and the last market sale price on the date before the lodgment date of this Prospectus, are set out below.

	3 month high	3 month low	Last market sale price
Price	\$0.10 on 12 February 2013	\$0.009 on 21 June 2013	\$0.009

## 2.10 CHESS

The Company will apply to participate in the Clearing House Electronic Subregister System (CHESS). CHESS is operated by ASX Settlement, a wholly owned subsidiary of ASX.

Under CHESS, the Company will not issue certificates to investors. Instead, security holders will receive a statement of their holdings in the Company. If an investor is broker sponsored, ASX Settlement will send a CHESS statement.

## 2.11 Taxation and duty implications

The Directors do not consider that it is appropriate to give potential investors advice regarding the taxation consequences of the Company conducting the Offer or investors applying for New Shares under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions of potential investors. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to potential investors in the Offer. Potential investors should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Offer.

No brokerage or stamp duty is payable by Applicants in respect of Applications for New Shares under this Prospectus.

## 2.12 Expenses of the Offer

The total estimated expenses of this Prospectus are estimated to be \$7,171, consisting of the following:

<b>Cost</b>	<b>\$</b>
ASIC fees	\$2,171
Other	Nil
<b>Total</b>	<b>\$2,171</b>

These expenses have or will be paid by the Company.

### **2.13 Enquiries**

Any queries regarding the Offer should be directed to Mr Simon Robertson, Company Secretary on +61 8 6555 2955.

You can also contact your stockbroker or professional adviser with any queries in relation to the Offer.

### **3 RIGHTS AND LIABILITIES ATTACHING TO SECURITIES**

#### **3.1 Introduction**

Full details of the rights and liabilities attaching to the New Shares are:

- (a) detailed in the Company's Constitution a copy of which can be inspected, free of charge, at the registered office of the Company during normal business hours; and
- (b) in certain circumstances, regulated by the Corporations Act, the Listing Rules and the general law.

#### **3.2 Shares**

The following is a summary of the more significant rights and liabilities attaching to the New Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

(a) General

The New Shares are ordinary shares and will, as from their allotment, rank equally in all respects with all ordinary shares in the Company.

(b) Reports and notices

Shareholders are entitled to receive all notices, reports, accounts and other documents required to be furnished to shareholders under the Company's Constitution, the Corporations Act and the Listing Rules.

(c) General meetings

Directors may call a meeting of members whenever they think fit. Members may call a meeting as provided by the Corporations Act. All members are entitled to a notice of meeting. A quorum for a meeting of members is 2 eligible voters.

The Company will hold annual general meetings in accordance with the Corporations Act and the Listing Rules.

Shareholders are entitled to be present in person, or by proxy, attorney or representative (in the case of a company) to speak and to vote at general meetings of the Company.

(d) Voting

Subject to any rights or restrictions at the time being attached to any class or classes of shares, at a general meeting of the Company on a show of hands, every ordinary Shareholder present in person, or by proxy, attorney or representative (in the case of a company) has one vote and upon a poll,

every Shareholder present in person, or by proxy, attorney or representative (in the case of a company) has one vote for any Share held by the Shareholder. In the case of an equality of votes, the chairperson has a casting vote.

A poll may be demanded by the chairperson of the meeting, any 5 Shareholders entitled to vote in person or by proxy, attorney or representative or by any one or more Shareholders holding not less than 5% of the total voting rights of all Shareholders having the right to vote.

(e) Dividends

Subject to the Corporations Act, the Listing Rules and any rights or restrictions attached to a class of shares, the Company may pay dividends as the Directors resolve.

The Directors may determine the method and time for payment of the dividend.

(f) Winding up

Subject to any rights or restrictions attached to a class of shares, on a winding up of the Company, any surplus must be divided among the Shareholders in the proportion to the shares held by them. Subject to any rights or restrictions attached to a class of shares, on a winding up of the Company, the liquidator may, with the sanction of a special resolution of the Shareholders:

- (i) distribute among Shareholders the whole or any part of the property of the Company; and
- (ii) decide how to distribute the property as between the Shareholders or different classes of Shareholders.

(g) Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to formal requirements, and to the registration of the transfer not resulting in a contravention of, or failure to observe, the provisions of a law of Australia.

(h) Issue of further Shares

The Directors may, subject to any restrictions imposed by the Constitution and the Corporations Act, allot, issue and grant options over further Shares, on such terms and conditions as they see fit.

(i) Directors

The existing Directors may appoint a new Director to fill a casual vacancy or as an addition to the Board.

Any such Director must retire at the next following annual general meeting of the Company (at which meeting he or she may be eligible for election as a Director).

The Constitution contains provisions relating to the rotation and election of directors. No Director other than the Managing Director may hold office later than the third annual general meeting after his or her appointment or election without submitting himself or herself for re-election.

(j) Variation of Shares and rights attaching to Shares

Shares may be converted or cancelled with member approval and the Company's share capital may be reduced in accordance with the requirements of the Corporations Act.

(k) Changes to the Constitution

The Company's Constitution can only be amended by a special resolution passed by at least three quarters of the members present and voting at a general meeting of the Company. At least 28 days' written notice specifying the intention to propose the resolution as a special resolution must be given.

(l) Listing Rules

Provided the Company remains admitted to the official list of the ASX, then despite anything in the Constitution, no act may be done that is prohibited by the Listing Rules, and authority is given for acts required to be done by the Listing Rules. If as a result of an amendment to the Listing Rules, there is an inconsistency between the Constitution and the Listing Rules, the Company shall, subject to the Corporations Act, do all things necessary to change the Constitution to remove the inconsistency as soon as possible and in any event, at the first general meeting of the Company held after the date on which the relevant amendment the Listing Rules comes into operation.

## 4 RISK FACTORS

An investment in the Company is not risk free. Before deciding to acquire the New Shares, Shareholders and prospective investors should read the entire Prospectus, consider at least the following risk factors in light of their personal circumstances and investment objectives (including financial and taxation issues) and seek professional advice from their accountant, stockbroker, lawyer or other professional adviser.

The operating and financial performance and position of the Company, the value of the Shares and the amount and timing of any dividends that the Company may pay will be influenced by a range of factors. Many of these factors will remain beyond the control of the Company and the Directors. Accordingly, these factors may have a material effect on the Company's performance and profitability which may cause the market price of Shares to rise or fall over any given period.

This section identifies the areas the Directors regard as major risks associated with an investment in the Company. This list is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

### 4.1 Specific risks

In addition to the general risks outlined below, there are specific risks associated with the Company's existing and proposed operations. These include:

(a) Joint Venture between BBX and Rio Gameleira Prospecção e Geologia Limitada

BBX and Minera Gold Limited (through its wholly-owned subsidiary Mundo Mineracao Ltda) (**Mundo**) are parties to an agreement whereby BBX has acquired Mundo's 51% interest in the Chapada Project in Brazil (**Sale Interest**) (the Chapada Option Agreement is dated 21 October 2011 and its amendments are dated 2 February 2012, 27 July 2012, 11 October 2012 and 28 March 2013 (together the **Agreement**)).

BBX has fully complied with all its obligations under the Agreement, including making all payments towards the acquisition of the Sale Interest totaling in excess of \$690,000, save that \$110,000 (or the agreed BBX shares equivalent) due 5 days after the publication in the Official Gazette of the approval by the Brazilian Mines Department of the transference of the Chapada Prospect to BBX has still to be paid to complete the total payments under the Agreement.

There is a risk that Mundo may not perform its obligations under the Agreement or that BBX does not acquire title to the Sale Interest.

(b) Acquisition of 49% of Chapada Project

BBX has agreed to acquire Rio Gameleira Prospeccao e Geologia Ltda's 49% interest in the Chapada Project for a net smelter royalty of 2.1%, subject to

completion of formal documentation. There is a risk that the formal documentation is not completed or that Rio Gameleira Prospeccao e Geologia Ltda does not perform its obligations under any agreement.

(c) Acquisition of 75% of Eldorado Juma do Project

Pursuant to an option agreement BBX has acquired 100% of Minorte Extração de Minério Ltda (**Minorte**), which in turn has entered into a conditional agreement to acquire a 75% interest in the Eldorado do Juma gold project (**Eldorado do Juma Project**). This agreement is subject to the satisfaction of a number of pre-conditions, including lifting of a current restriction by the Departamento Nacional de Produção Mineral (**DNPM**) (Brazilian Mines Department) to non-garimpeiro mining activity in the area, granting of exploration licences from the existing co-op licences and transfer of title to Comin Gold (a BBX managed entity).

In the event that the restriction is not lifted, or the other pre-conditions are not satisfied or waived, Minorte's acquisition of a 75% interest in the Eldorado Juma do Project may not proceed. While the Company is confident that the restriction will be lifted in due course, and the other conditions satisfied, in the event the acquisition does not proceed this may adversely affect the operations, financial positions and/or performance of the Company.

(d) Additional requirements for funding

BBX will be required to raise additional funds in the future in the event exploration costs exceed BBX's estimates and to effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which BBX may incur.

BBX may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Failure to obtain sufficient financing for BBX's activities and future projects may result in delay and indefinite postponement of exploration, or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to BBX and might involve substantial dilution to Shareholders.

Loan agreements and other financing rearrangements such as debt facilities, convertible note issues and finance leases (and any related guarantee and security) that may be entered into by BBX may contain covenants, undertakings and other provisions which, if breached, may entitle lenders to accelerate repayment of loans and there is no assurance that BBX would be able to repay such loans in the event of an acceleration.

Enforcement of any security granted by BBX or default under a finance lease could also result in the loss of assets.

(e) Exploration risks

The mineral tenements of the Company are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.

There can be no assurance that exploration of these tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

The success of the Company will also depend upon the Company having access to sufficient development capital, being able to maintain title to its tenements and obtaining all required approvals for its activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the tenements, a reduction in the cash reserves of the Company and possible relinquishment of the tenements.

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

(f) Market price of gold

Changes in the market price of gold, which in the past have fluctuated widely, will affect the viability of the Company. The market price of gold is set in the world market and is affected by numerous industry factors beyond the Company's control, including the demand for precious metals, expectations with respect to the rate of inflation, interest rates, currency exchange rates, the demand for jewellery and industrial products containing metals, gold production levels, inventories, cost of substitutes, changes in global or regional investment or consumption patterns, and sales by central banks and other holders, speculators and procedures of gold and

other metals in response to any of the above factors, and global and regional political and economic factors.

(g) Gold price volatility and exchange rate

If the Company achieves success leading to gold production, the revenue it will derive through the sale of these precious metals exposes the potential income of the Company to price and exchange rate risks. Gold prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious metals, technological advancements, forward selling activities and other macro-economic factors.

Furthermore, international prices of gold is denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Brazilian and Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar, the Australian dollar and the Brazilian real as determined in international markets.

(h) Gold - development risks

The Company's ability to achieve development cost and capital expenditure estimates on a timely basis cannot be assured. The business of gold mine development involves many risks and may be impacted by factors including overall availability of free cash to fund continuing development activities, labour force disruptions, cost overruns, changes in the regulatory environment and other unforeseen contingencies. Other risks also exist such as environmental hazards (including discharge of pollutants or hazardous chemicals), industrial accidents and occupational and health hazards. Such occurrences could result in damage to, or destruction of, facilities, personal injury or death, environmental damage, increased development costs and other monetary losses and possible legal liability to the owner of the tenements. The Company may become subject to liability for pollution or other hazards against which it has not insured or cannot insure, including those in respect of past mining activities for which it was not responsible.

In addition the Company's profitability could be adversely affected if for any reason its mine development is unexpectedly interrupted or slowed. Examples of events which could have such an impact include unscheduled plant shutdowns or other processing problems, mechanical failures, the unavailability of materials and equipment, pit slope failures, unusual or unexpected rock formations, poor or unexpected geological or metallurgical conditions, poor or inadequate ventilation, failure of mine communication systems, poor water condition, interruptions to gas and electricity supplies, human error and adverse weather conditions.

The risks outlined above also mean that there can be no assurances as to the future development of a mining operation in relation to any of the Company's projects described in this Prospectus or which the Company may acquire in the future.

(i) Brazil

BBX's projects are located in Brazil which is the largest economy in South America and one of the 10 largest economies in the world. It has a stable political system with falling unemployment, low inflation, a firm currency and strong economic growth, with no political enemies, no ethnic or cultural conflicts and no threat of terrorism or civil unrest. The Government has invested significantly in the country's infrastructure and encouraged significant foreign investment. The Company may be subject to the risks associated with operating in Brazil, involving various risks and uncertainties which could include, but are not limited to, exchange rate fluctuations, potential for higher inflation, labour unrest, the risks of expropriation and nationalization, renegotiation or nullification of existing concessions, licences, permits and contracts, illegal mining, changes in taxation policies, restrictions on foreign exchange and repatriation and changing political conditions, currency controls and restrictions on imports of equipment and consumables and on the use of foreign contractors. Changes, if any, in mining or investment policies or shifts in political attitude in Brazil may impact the operations or profitability of the Company. Operations may be affected in varying degrees by government regulations with respect to, but not limited to, production, price controls, export controls, foreign currency remittance, income taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people, water use and mine safety.

Failure to comply strictly with applicable laws, regulations and local practices relating to mineral rights applications and tenure, could result in loss, reduction or expropriation of entitlements, or the imposition of additional local or foreign parties as joint venture partners with carried or other interests.

Outcomes in courts in Brazil may be less predictable than in Australia, which could affect the enforceability of contracts entered into by the Company or its subsidiaries in Brazil.

The occurrence of these various factors and uncertainties cannot be accurately predicted and could impact on the operations or profitability of the Company. The Company has made its investment and strategic decisions based on the information currently available to the Directors, however should there be any material change in the political, economic, legal and

social environments in Brazil, the Directors may reassess investment decisions and commitments to assets in Brazil.

(j) Environmental

The operations and proposed activities of the Company are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. Events, such as unpredictable rainfall, bush fires, floods etc may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.

(k) Trading price of Shares

BBX's operating results, economic and financial prospects and other factors will affect the trading price of the Shares. In addition, the price of Shares is subject to varied and often unpredictable influences on the market for equities, including, but not limited to general economic conditions including the Australian dollar and United States dollar performance on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general or Australian mining stocks in particular, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the Shares.

In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and

tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that BBX's market performance will not be adversely affected by any such market fluctuations or factors.

(l) Title risk

BBX cannot give any assurance that title to the BBX's projects will not be challenged or impugned for various reasons, including that they may be subject to prior unregistered agreements or transfers or title may be affected by undetected defects.

Interests in title in Brazil are governed by laws and regulations and are evidenced by granting of licences, rights, leases, etc (**Title Right**). There is no guarantee that applications will be granted to the Company or other person who applied for a Title Right through which the Company has a beneficial interest to the Title Right. Each Title Right is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to, or its interests in, tenements if Title Right conditions are not met or if insufficient funds are available to meet expenditure commitments when they arise.

Further, Title Rights are subject to periodic renewal. There is no guarantee that current or future Title Rights will be approved. Renewal of the terms of the granted Title Right is at the discretion of the relevant government authority. Renewal conditions may include increased expenditure or work commitments or compulsory relinquishment of the areas comprising the Company's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial positions and/or performance of the Company.

(m) Regulatory risk

Changes in relevant taxes (including GST), legal and administrative regimes and government policies in Australia, Brazil and other overseas states may adversely affect the financial performance of the Company, including the possibility of adversely affecting granting of Title Rights and the legal regime surrounding Title Rights. Any change to the current rate of company income tax in Australia and Brazil will impact upon Shareholder returns. Any change to current rates of income tax applied to individuals and trusts may also impact upon Shareholder returns. In addition, any change in tax arrangements between Australia and Brazil and other jurisdictions could have an adverse impact on profits and the level of franking credits available to frank any future dividends.

(n) Insurance risks

Insurance against all risks associated with the Company's operations is not always available, or if it is available, affordable. The Company will maintain insurance where it is considered appropriate for its needs. However there are likely to be some risks, in particular those relating to wilful damage and political risks, for which it will not be insured either because appropriate cover is not available or because the Board consider the required premiums to be excessive having regard to the risk mitigation provided.

(o) Third party risks

The operations of the Company will require involvement with a number of third parties, including suppliers, contractors and customers. Financial failure, default or contractual non-compliance of the part of such third parties may materially harm the performance of the Company. It is not possible for the Company to predict or protect itself against all such risks.

(p) Counterparty risk

The Company has entered into conditional agreements with third parties, including option agreements to acquire the Eldorado do Juma Project and the Juma East Project. There is a risk that the counterparties may not meet their obligations under those agreements. There is also a risk that failure to meet conditions will result in the loss of interest. Commercial consequences are likely to flow from any non-observance of commercial obligations.

(q) Joint venture risk

The Company is subject to the risk that changes in the status of any of the Company's joint ventures (including changes caused by financial failure or default by a participant in the joint venture) may adversely affect the operations and performance of the Company.

(r) Occupational health and safety

The mining industry has become subject to increasing occupational health and safety responsibility and liability. The potential for liability is a constant risk.

(s) Reliance on key management

The responsibility of overseeing the day-to-day operations and the strategic management of BBX depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on BBX if one or more of these employees cease their employment.

(t) Competition risk

The industry in which BBX will be involved is subject to domestic and global competition. Although BBX will undertake all reasonable due diligence in its

business decisions and operations, BBX will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of BBX's projects and business.

(u) Force majeure

BBX and its projects, now or in the future may be adversely affected by risks outside the control of BBX including labour unrest, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(v) Litigation risks

BBX is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, BBX may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on BBX's operations, financial performance and financial position. BBX is not currently engaged in any litigation.

## 5 ADDITIONAL INFORMATION

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the period from lodgment of the Company's annual financial statements of the Company for the financial year ended 30 June 2012 to the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

### 5.1 The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
  - (i) the annual financial statements of the Company for the financial year ended 30 June 2012 being the last financial statements for a financial year, of the Company lodged with the ASIC before the issue of this Prospectus;

- (ii) any half-year financial report lodged with ASIC by the Company after the lodgment of that annual report and before the lodgment of this Prospectus; and
- (iii) any documents used to notify ASX of information relating to the Company in the period from lodgment of the financial statements referred to in paragraph 5.1(c)(iii) above until the issue of the Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be obtained free of charge from the Company's registered office during normal office hours. The Company has lodged the following announcements with ASX since the 30 June 2012 audited financial statements:

ASX maintains files containing publicly available information from all listed companies. The Company's file is available for inspection at ASX during business hours.

## 5.2 No prospective financial forecasts

The Directors have considered the matters outlined in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings because the proposed future operations of the Company do not have an operating history from which reliable forecasts can be made. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Notwithstanding the above, this Prospectus includes, or may include, forward looking statements including, without limitation, forward looking statements regarding the Company's financial position, business strategy, and plans and objectives for its business and future operations (including development plans and objectives), which have been based on the Company's current expectations. These forward-looking statements are, however, subject to known and unknown risks, uncertainties and assumptions that could cause actual results, performance or achievements to differ materially from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward looking statements are based on numerous assumptions regarding the

Company's present and future business strategies and environment in which the Company will operate in the future.

Matters not yet known to the Company or not currently considered material to the Company may impact on these forward looking statements. These statements reflect views held only as at the date of this Prospectus. In light of these risks, uncertainties and assumptions, the forward-looking statements in this Prospectus might not occur. Investors are therefore cautioned not to place undue reliance on these statements.

### 5.3 Privacy

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related body corporates, agents, contractors and third party service providers, including mailing houses and professional advisors, and to ASX and regulatory authorities.

If an Applicant becomes a Shareholder, the Corporations Act requires the Company to include information about the Shareholder (including name, address and details of the Shares held) in its public register. The information contained in the Company's public register must remain there even if that person ceases to be a Shareholder. Information contained in the Company's register is also used to facilitate distribution payments and corporate communications (including the Company's financial results, annual reports and other information that the Company may wish to communicate to its security holders) and compliance by the Company with legal and regulatory requirements.

If you do not provide the information required on the Application Form, the Company may not be able to accept or process your Application. An Applicant has the right to gain access to the information that the Company holds about that person subject to certain exceptions under law. A fee may be charged for access. Such requests must be made in writing to the Company's registered office.

### 5.4 Directors' interests

As at the date of this Prospectus the Directors have a relevant interest in securities of the Company and remuneration as set out below.

Mr Smith was appointed in April 2013 is currently owed \$5,733 in director's fees.

Mr Smith will receive a fee of \$24,500 (exclusive of GST) for services provided in respect of the Placement.

The Company has entered into indemnity, insurance and access deeds with each of the Directors (**Deeds**). Under the Deeds, the Company agrees to indemnify each of the Directors to the extent permitted by the Corporations Act against certain

liabilities incurred by the Directors whilst acting as an officer of the Company, and to insure each Director against certain risks to which the Company is exposed as an officer of the Company. The Deeds also grant each Director a right of access to certain records of the Company for a period of up to 7 years after the Director ceases to be an officer of the Company.

The Deeds were entered into as part consideration for the Directors agreeing to hold office as directors of the Company.

The Company also pays premiums to insure all of the Directors against liabilities for costs and expenses incurred by them in defending legal proceedings arising from their conduct whilst acting in the capacity as a Director of the Company.

## **5.5 No other interests**

Other than as set out above or elsewhere in this Prospectus, no Director or proposed Director holds at the date of this Prospectus, or held at any time during the last 2 years before the date of lodgment of this Prospectus with ASIC, any interest in:
