About BBX Minerals Ltd

BBX Minerals Limited (ASX: BBX) is a mineral exploration and mining company listed on the Australian Securities Exchange. Its major focus is Brazil, mainly in the southern Amazon, a region BBX believes is vastly underexplored with high potential for the discovery of world class gold and copper deposits.

BBX's key asset is the Juma East Gold Project in the Apuí region – Amazonas State. The company has 58.1km² of exploration tenements within the Colider Group, a highly prospective geological environment for epithermal gold deposits and Cu-Au porphyry deposits. The region is under explored and could provide BBX with a pipeline of high growth, greenfields gold discoveries.
