### Brazil Projects:

**Juma East:** copper- gold- silver

**Ema:** copper-gold

**Eldorado Do Juma:** gold

**Pombos:** copper –gold

## • BBX CONFIRMS DRILLING SEQUENCE AT HIGHLY PROSPECTIVE JUMA EAST TARGETS

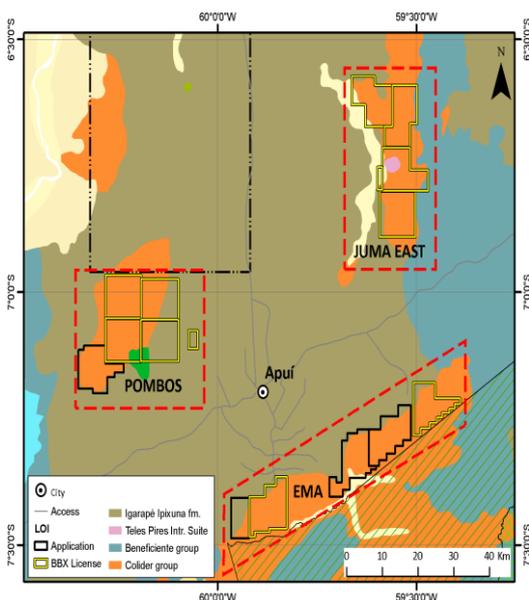

## • RIGS MOBILISED TO SITE

## • DRILLING TO COMMENCE LATE SEPTEMBER WITH FIRST ASSAY RESULTS MID NOVEMBER

BBX (ASX: BBX), via its 100% owned subsidiary Mineração BBX do Brasil Ltda will commence drilling 6 targets at its Juma East project in late September 2015. Mobilisation of drilling equipment from Belo Horizonte to site commenced on September 14. The proposed drilling sequence is indicated on the attached map (fig 1).

### Access Road

A group of local land-owners is currently upgrading 50kms of access road from the Trans-Amazonica highway east of Apuí which will cut through the entire Juma East project area. This will result in significantly improved access to all the Juma East targets, including the proposed drill sites, within a 1-2 month period.

About BBX Minerals Ltd

BBX Minerals Limited (ASX: BBX) is a mineral exploration and mining company listed on the Australian Securities Exchange. Its major focus is Brazil, mainly in the southern Amazon, a region BBX believes is vastly underexplored with high potential for the discovery of world class gold and copper deposits.

BBX's key asset is the Juma East Gold Project in the Apuí region – Amazonas State. The company has 128 km<sup>2</sup> of exploration tenements within the Colider Group, a highly prospective geological environment for epithermal gold deposits and Cu-Au porphyry deposits. The region is under explored and could provide BBX with a pipeline of high growth, greenfields gold discoveries.
