**About BBX Minerals Ltd**

BBX Minerals Limited is a mineral exploration and technology company listed on the Australian Securities Exchange. Its major focus is Brazil, mainly in the southern Amazon, a region BBX believes is vastly underexplored with high potential for the discovery of world class gold and precious metal deposits.

BBX’s key assets are the Três Estados and Ema Gold Projects in the Apuí region, Amazonas State. The company has 270.5km<sup>2</sup> of exploration tenements within the Colider Group, a prospective geological environment for gold, PGM and base metal deposits. The region is under-explored and has the potential to provide BBX with a pipeline of high-growth, greenfields precious metal discoveries.
