BBX STRENGTHENS OPERATIONAL STRUCTURE WITH SENIOR CHEMIST/LABORATORY MANAGER APPOINTMENT

Brazilian gold explorer BBX Minerals (ASX: BBX or “the Company”) is pleased to announce the appointment of Mr Ediberto Brito as Senior Chemist and Laboratory Manager.

Mr Brito joins BBX Minerals from Troy Resources where he was Laboratory Manager at Troy’s Guyana operation. Mr Brito will assume responsibility for the Company’s laboratory currently being installed at the Marcelo facility and will coordinate the Company’s metallurgical testwork programme. Mr Brito will provide valuable guidance in the ongoing development of both a repeatable assay method, thereby expediting the release of drill assay results, and a commercial extraction process.

Mr Brito has over 30 years’ experience as a Laboratory Manager for BHP, Western Mining Corporation (WMC), Santa Elina Mines, Mundo Minerals and Troy Resources and has designed and installed a number of laboratories in Brazil, Argentina and Guyana.

About BBX Minerals Ltd

BBX Minerals Limited (ASX: BBX) is a mineral exploration and mining company listed on the Australian Securities Exchange. Its major focus is Brazil, mainly in the southern Amazon, a region BBX believes is vastly underexplored with high potential for the discovery of world class gold and copper deposits.

BBX’s key assets are the Juma East, Três Estados and Ema Gold Projects in the Apuí region, Amazonas State. The company has 58.1km² of exploration tenements within the Colider Group, a prospective geological environment for epithermal gold and Cu-Au porphyry deposits. The region is under-explored and has the potential to provide BBX with a pipeline of high-growth, greenfields gold discoveries
